## Step 5

### How to Start and stop heart record

En Initiate heart rate receiving: press button C for 2 seconds when under any screen

Fr Commencer la réception du rythme cardiaque: Appuyez sur le bouton C 2 secondes sous n'importe quel écran

De Herzfrequenzempfang starten: Drücken Sie an einem beliebigen Bildschirm 2 Sekunden lang die C-Taste.

Sp Iniciar recepción de ritmo cardíaco: pulse el botón C durante 2 segundos cuando esté en cualquier pantalla

It Avviare la ricezione della frequenza cardiaca: premere il pulsante C per 2 secondi in qualsiasi schermata

Dh Ontvangst hartslag starten: houd de knop C 2 seconden ingedrukt in elk scherm

中文 啟動心率接收,在任何畫面下,按下C鍵2秒(心率錶需要與心率感測器先配對過,心率接收才可被開啟)

## Step 6

En 1. Enter the pulse function and change to stopwatch mode.  
2. Press C button for 2 seconds to start/stop heart rate measurement function.  
3. If a signal is not received for 1 minutes, the function will turn off automatically.

Fr 1. Commencer/Arrêter l'enregistrement: Entrez dans la fonction de pouls et basculez en mode chronomètre  
2. Appuyez sur le bouton C 2 secondes pour commencer/arrêter la fonction de mesure du rythme cardiaque.  
3. Si vous ne recevez pas de signal pendant 1 minute, la fonction s'arrête automatiquement.

De 1. Aufzeichnung starten/stoppen: Rufen Sie die Pulsfunktion auf und wechseln in den Stoppuhrmodus.  
2. Appuyez sur le bouton C 2 secondes pour commencer/arrêter la fonction de mesure du rythme cardiaque.  
3. Si vous ne recevez pas de signal pendant 1 minute, la fonction s'arrête automatiquement.

Sp 1. Iniciar/detener la grabación: introduzca la función de pulso y cambie al modo de cronómetro  
2. Pulse el botón C durante 2 segundos para iniciar/detener la función de medición del ritmo cardíaco.  
3. Si no se recibiera una señal durante 1 minuto, la función se desconectará automáticamente.

It 1. Avvio/arresto della registrazione: Accedere alla funzione Pulse e passare alla modalità Stopwatch.  
2. Premere il pulsante C per 2 secondi per avviare/arrestare la funzione di misurazione della frequenza cardiaca.  
3. Se non si riceve un segnale per 1 minuto, la funzione si disattiva automaticamente.

Dh 1. Registratie starten/stoppen: open de hartslagfunctie en schakel naar de chronometermodus  
2. Houd de knop C 2 seconden ingedrukt om de functie voor het meten van de hartslag te starten/stoppen.  
3. Als gedurende 1 minuut geen signaal wordt ontvangen, schakelt de functie automatisch uit.

中文 1. 心率記錄只能在"STOPWATCH"功能下開啟開始被記錄。  
2. 按C鍵,開始啟動(START)或停止(STOP)心率測量記錄。  
3. 如果1分鐘沒有收到訊號,該功能將自動關閉。
